

The Grenada County Board of Supervisors met today in a meeting with department heads to discuss responses to COVID-19 and Grenada County operations.

The Board of Supervisors is closely monitoring the situation and has made the following temporary changes: Effective March 19, 2020, access to the Grenada County Courthouse will be restricted through the door facing the square. Other doors will be closed pending further order of the Board.

Citizens are asked to limit their visits to the courthouse and conduct any business they may have with offices in the courthouse over the telephone, by mail, or by internet. Other county buildings may limit access on an as needed basis.

All Grenada County offices will remain open to the public. Restrictions are put into place in keeping with the guidelines established by the CDC and our government in order to keep our citizens safe.

We understand that this may present inconveniences, but want to do everything we can to keep everyone safe.
